Long Yang

School of Materials Science and Engineering, Tongji University, Shanghai 201804, China
long_yang@tongji.edu.cn | https://www.yanglonggroup.com

Research Interests

My research focuses on the study of local structure-property relationship in crystalline, non-crystalline, and nanocrystalline materials at the sub-nanometer length scale using x-ray, neutron, and electron diffraction techniques, including pair distribution function (PDF) and atomic electron tomography (AET) methods, by incorporating AI and machine learning algorithms.

Education

PhD in Materials Science and Engineering, Columbia University, New York, USA 2017 - 2021
MSc in Materials Science and Engineering, Columbia University, New York, USA 2015 - 2016
BSc in Information Science and Technology, Fudan University, Shanghai, China 2011 - 2015

Appointments

Professor, School of Materials Science and Engineering, Tongji University, China 2022 - Now
Postdoctoral Scholar, Department of Physics and Astronomy, UCLA, USA 2021 - 2022

Honors & Awards

- Outstanding Mentor at the Tongji University Student Innovation Base, 2023 (Awarded by the School of Innovation and Entrepreneurship at Tongji University)
- Shanghai Leading Talents Program, 2021 (Overseas)
- WangDao Scholar, 2015 (Selected as one of the three distinguished projects at Fudan University)
- Fudan University Scholarship, 2013-2015 (Multiple times)
- National Scholarship, 2012 (Awarded by the Ministry of Education of the People's Republic of China)

Scientific Activities

Community Scientific Software Efforts:

- PDF in the Cloud (PDFitc): A cloud-based total scattering PDF data analysis platform at https://pdfitc.org.
- PDF Database (PDFdata): A open-access PDF database at https://pdfdata.org.
- PDFgui: A local atomic structure modeling software for x-ray and neutron pair distribution function data (Current lead developer).
- ADvanced DIffraction Environment (ADDIE): A cloud-based platform at the Oak Ridge National Laboratory to host neutron diffraction data analysis tools at https://addie.ornl.gov .
- Diffraction Data Pipeline: Time-of-flight neutron diffraction data auto reduction, calibration, and structural fitting of diffraction and PDF datasets collected at the NOMAD beamline of Spallation Neutron Source (SNS).

Committee Members:

- Council Member of the 8th Chinese Crystallographic Society (CCrS), term starts from October 2025.
- Committee member of the local structure and total scattering technique committee of the CCrS, which was founded in October 2023.
- Reviewer for user experiment proposals at International large scientific facilities: Shanghai Synchrotron Radiation Facility (SSRF), China Spallation Neutron Source (CSNS), Japan Proton Accelerator Research Complex (J-PARC).

Journal Reviewers:

- Science Advances, Journal of the American Chemical Society, Acta Materialia, APL Materials, ACS Applied Nano Materials, etc.

TEACHING

- Solid State Physics, 2023 Fall (Graduate)
- Material Science Major Experiments, 2023 Fall, 2024 Fall (Undergraduate)
- Fundamentals of Materials Science, 2024 Fall, 2025 Fall (Undergraduate)
- Material Physics, 2024 Fall, 2025 Fall (Undergraduate)

PATENTS

1. **Long Yang**, Jie Zhou, Hai Qiao, ZL202511799958.6, A database construction method for atomic pair distribution functions.
2. **Long Yang**, Changyuan Li, ZL202610194518.6, An atomic pair distribution function-based method and system for measuring chemical short-range order.
3. Yanzhong Pei, Zhiwei Chen, **Long Yang**, Qingyu Bai, CN202411586052.1, A cesium-silver-iodine insulation material with ultra-low thermal conductivity, and its preparation method and application.

Talks & Conferences

1. *PDF Local Structure Characterization and Low Thermal Conductivity Materials,* The 3rd Youth Academic Conference on Ceramics of the Chinese Crystallographic Society (CCrS) and the Symposium on Crystalline Composite Materials, Kunming, Yunnan, China, April 2026 (Invited Talk)
2. *Recent Development in PDF Methodology: Single-Crystal Diffuse Scattering Technique and Open-Access Database,* The 10th Chinese Crystallographic Society (CCrS) meeting, Guilin, Guangxi, China, October 2025 (Invited Talk, Committee Member)
3. *The Development of Three-Dimensional Pair Distribution Function at SSRF,* Asia-Oceania Conference on Synchrotron Radiation Instrumentation 2025 (AO-SRI 2025, International), Hangzhou, Zhejiang, China, October 2025 (Oral Talk)
4. National Key Research and Development Program of China 'Study on the Structure-Property Relationship of Multiphase Catalysis Based on Neutron Scattering and Spectroscopy' 2025 Midterm Project Self-Evaluation Meeting, ShanghaiTech University, Shanghai, China, June 2025 (Invited Committee Member)
5. *Local Structures of Materials and Atomic Pair Distribution Function,* Sino-French Colloquium Energy Materials for Sustainable Development, Tongji University, Shanghai, China, May 2025 (Oral Talk)
6. *Atomic Local Structures and Pair Distribution Function,* Harbin Institute of Technology, Shenzhen, Guangdong, China, December 2024 (Invited Talk)
7. *PDF Local Structure Characterization and Chemical Short-Range Ordering,* The 13th China Congress on Particle Technology, Suzhou, Jiangsu, China, October 2024 (Invited Talk)
8. *Atomic Local Structures and Low Lattice Thermal Conductivity Materials,* The 16th Chinese Conference on Thermoelectric Materials and Applications, Chongqing, China, October 2024 (Invited Talk)
9. *PDF Local Structure Generative Model Algorithms,* Committee Member Meeting of the Local Structure and Total Scattering Technique Committee of the Chinese Crystallographic Society, Xining, Qinghai, China, July 2024 (Invited Talk, Committee Member)
10. *The Atomic Local Structure Characterization on Materials,* Suzhou Laboratory, Suzhou, Jiangsu, China, June 2024 (Invited Talk)
11. *The Development of Light Sources and Experimental Methods,* 2024 Spring Semester Nanjing University Of Science And Technology International Course on the Introduction to Synchrotron Radiation and Neutron Scattering, Remote, China, May 2024 (Invited Talk)
12. National Key Research and Development Program of China 'Study on the Synchrotron Radiation High-Throughput Characterization of Novel Actinide Alloys' 2024 Mid-term Review Meeting, Shanghai, China, April 2024 (Invited Committee Member)
13. National Key Research and Development Program of China 'Study on the Structure-Property Relationship of Multiphase Catalysis Based on Neutron Scattering and Spectroscopy' 2023 Annual Work Summary Meeting, Dongguan, Guangdong, China, January 2024 (Invited Committee Member)
14. *Unveiling local magnetic correlations: the development of magnetic pair distribution function at CSNS,* The 24th meeting of The International Collaboration of Advanced Neutron Sources (ICANS XXIV, International), Dongguan, Guangdong, China, October 2023 (Invited Talk)
15. *The cloud platform for PDF data analysis of local structure characterization,* The 9th Chinese Crystallographic Society (CCrS) meeting, Fuzhou, Fujian, China, October 2023 (Invited Talk, Committee Member)
16. 2023 China Spallation Neutron Source (CSNS) Multi-Physics Instrument User Meeting, Xining, Qinghai, China, August 2023 (Attendee)
17. *Data Processing for Advanced Light Source Experiments,* IHEP School of Computing 2023, IHEP of CAS, Beijing, China, August 2023 (Invited talk)

18. *The cloud platform for PDF data analysis of local structure characterization,* Chinese Materials Conference 2022-2023 by Chinese Materials Research Society(C-MRS), Shenzhen, Guangdong, China, July 2023 (Outstanding talk award)
19. *The Structure-Property Relationship of Atomic Local Structures and Low Lattice Thermal Conductivities,* The 14th Chinese Conference on Thermoelectric Materials and Applications (CCT2022), Tongxiang, Zhejiang, China, March 2023 (Oral presentation)
20. 2023 China Spallation Neutron Source (CSNS) User Meeting, The Institute of High Energy Physics (IHEP) of the Chinese Academy of Sciences (CAS), Dongguan, Guangdong, China, March 2023 (Attendee)
21. National Program on Key Research and Development 'Basic Research Conditions and Major Scientific Instruments and Equipment Research and Development' Key Projects 2023 Annual Progress Meeting (Scientific Data Section), Beijing, China, March 2023 (Invited committee members)
22. *Atomic Pair Distribution Function Data Processing for Total Scattering Experiments,* 3rd Advanced Light Source Neutron Source Scientific Data and Software Workshop, IHEP of CAS, Beijing, China, March 2023 (Oral presentation)
23. National Key Research and Development Program of China 'Study on the Structure-Property Relationship of Multiphase Catalysis Based on Neutron Scattering and Spectroscopy' Project Initiation and Implementation Plan Demonstration Meeting, Beijing, China, February 2023 (Invited committee members)
24. *The Atomic Local Structure Characterization on Materials,* Seminar at The State Key Lab of High Performance Ceramics and Superfine Microstructure Shanghai, Institute of Ceramics, Chinese Academy of Sciences, Shanghai, China, December 2022 (Invited talk)
25. 2022 Shanghai Soft X-Ray Free Electron Laser Instrument User Meeting, ShanghaiTech University, Shanghai, China, November 2022 (Attendee)
26. *Data Processing for Synchrotron X-ray and Neutron Experiments,* IHEP School of Computing 2022, IHEP of CAS, Beijing, China, August 2022 (Invited talk)
27. *Data Mining and High-Energy Diffraction Data Analysis in the Cloud,* IHEP Computed Center, High Energy Photon Source (HEPS), IHEP of CAS, Beijing, China, February 2022 (Invited talk)
28. *Structure-mining: An Automated Tool to Find Candidate Structures from Neutron and X-ray PDF Data,* PDF-2020 workshop, Remote, UK, China & USA, December 2020 (Invited talk)
29. *Structure-mining: An Automated Tool to Find Candidate Structures from Neutron and X-ray PDF Data,* 10th American Conference on Neutron Scattering (ACNS 2020), Remote, USA, July 2020 (Oral presentation)
30. *Towards Machine Learning on Experimental Nanostructure Data,* Columbia University Data Science Day 2020, New York, USA, March 2020 (Oral presentation, cecorded at https://youtu.be/8xwWrRUkhN4)
31. *Introduction of DiffPy-CMI: What It Can Do Beyond PDFgui,* 2nd US School on Total Scattering Analysis, Oak Ridge, USA, August 2018 (Invited talk)
32. *Role of Local Structural Distortions on Mo and V Nitrides with The Pair Distribution Function Analysis,* Quantum Complex Matter 2018 (QCM 2018), Laboratori Nazionali di Frascati, Rome, Italy, June 2018 (Poster)
